Special Issue on Crustal evolution in Asia: Correlations and connections.

Due to a production error, the following article “Petrochemistry and mineral chemistry of Late Permian hornblendite and hornblende gabbro from the Wang Nam Khiao area, Nakhon Ratchasima, Thailand: Indication of Palaeo-Tethyan subduction” was wrongly included as part of the issue JAES_129C. This article is now replaced with this note and will be included in issue JAES_130C [SI: ASIA ANATOMY].
